

**REMARKS**

With the addition of claims 42-52, claims 30-52 are pending.

The amendments to claims 30, 37, 38 and 41 and the addition of claims 42-52 are supported by the specification at page 10, lines 1-11.

Applicants submit that the amendments to claims 32, 33, 39 and 40 are cosmetic and would not narrow the scope of the amended claim recitations.

This application is a division of U.S. Application No. 09/929,808. Applicants believe that the pending claims are free of prior art and patentable because Examiner Coleman has already allowed claims drawn toward risperidone form A or B in the parent application (see U.S. Patent No. 6,750,341). Allowance of the present claims is respectfully requested. If there are any minor matters that can be resolved with a telephone interview, the Examiner can reach the undersigned at (202) 220-4223 in order to expedite the prosecution.

Respectfully submitted,
